XM radio has the best radio stations out there we do not have to listen tired, boring commercials and I do not have to keep changing the channel because 10 commercials are being played. I brought a radio to listen music, news and weather not to hear someone talk about viagra or other stupid things. XM radio provides an array different music, comedy, news which is very refreshing. I am paying a monthly fee for this service and do not believe the National Association of Broadcasters should have the right to dictate what I listen to. I urge the FCC to reject the NAB's petition 04-160 and I support XM's programming and services that we are asking for and deserve.
